

Pre-School Program (Level I & II)

"The small child at dancing class may never become a professional dancer - but the courtesies and disciplines, as well as the joy of movement, will touch her forever.".....Helen Thomson ***

These classes are a nurturing, fun introduction to dance for three and four year olds. Students who have just turned five and had no previous dance experience may also be placed in these classes.

Our goal for our Pre-School students is to promote a genuine love for movement and music. Emphasis is placed on fun and the development of positive self-esteem. The students' natural joy of movement and creativity is encouraged while they are introduced to the fundamentals of basic ballet and tap. Classes will also include basic tumbling.

As they learn how to move to music and express themselves through dance, students also learn the basics of classroom behavior. These concepts include learning how to take turns, following another dancer or leading the way, waiting patiently, working together with others, and having a positive attitude.
